Key to rainfall distribution:

FEW- : Rain is likely to fall in few places (0% to less than 33%),

SEVERAL- : Rainfall is likely to fall in several places (33% to less than 66%),

MOST- : Rainfall is likely to fall in most places (More than 66%).

Table 2: Climatic zone: Medium Ground Areas – 2000 – 2300 M asl (Subukia, Kabazi, Bahati, Njoro and Naivasha)

Forecast	Tuesday 19/08/ 2025	Wednesday 20/08/ 2025	Thursday 21/08/ 2025	Friday 22/08/ 2025	Saturday 23/08/ 2025	Sunday 24/08/ 2025	Monday 25/08/ 2025
Morning (Rains)							
Afternoon	 Showers	 Showers	 Showers	 Showers	 Showers	 Showers	 Showers
Night time (Partly Cloudy)							
Rainfall / Showers distribution (Few)							
 Maximum Temperature (Deg. Celcius)	26	25	25	26	25	25	25
 Minimum Temperature (Deg. Celcius)	14	15	15	14	14	15	15
Possible Hazards	Thunder- storms	Thunder- storms	Thunder- storms	Thunder- storms	Thunder- storms	Thunder- storms	Thunder- storms

Key to rainfall distribution:

FEW- : Rain is likely to fall in few places (0% to less than 33%),

SEVERAL- : Rainfall is likely to fall in several places (33% to less than 66%),

MOST- : Rainfall is likely to fall in most places (More than 66%).

Table 3: Climatic zone: Low Ground Areas – Below 2000 M asl (Solai, Rongai, Kabarak, Menengai, Nakuru Town, Elementaita and Gilgil)

Forecast	Tuesday 19/08/ 2025	Wednesday 20/08/ 2025	Thursday 21/08/ 2025	Friday 22/08/ 2025	Saturday 23/08/ 2025	Sunday 24/08/ 2025	Monday 25/08/ 2025
Morning (Rains)							
Afternoon	 Showers	 Showers	 Showers	 Showers	 Showers	 Showers	 Showers
Night time Partly Cloudy							
Rainfall / Showers Distribution (Few)							
 Maximum Temperature (Deg. Celcius)	25	24	25	26	26	26	27
 Minimum Temperature (Deg. Celcius)	13	13	14	15	14	15	15
Possible Hazards	Thunder- storms	Thunder- storms	Thunder- storms	Thunder- storms	Thunder- storms	Thunder- storms	Thunder- storms

Key to rainfall distribution:

FEW- : Rain is likely to fall in few places (0% to less than 33%),

SEVERAL- : Rainfall is likely to fall in several places (33% to less than 66%),

MOST- : Rainfall is likely to fall in most places (More than 66%).

Summary

- The above figure shows the weekly cumulative volume of rainfall amounts each ward / sub-county in Nakuru County is forecasted to receive from Tuesday 19th to Monday 25th August 2025. There is a noticeable general increase in rainfall activities, both temporal and spatial, compared to last week.
- Detailed forecast in the above Climatic Zone tables indicates that a number of wards in Kuresoi North, Njoro and Subukia sub-Counties are projected to receive weekly cumulative rainfall amounts of 70 to 100mm. Kamara will record the highest amount of over 100mm of rainfall. The forecast also shows that several wards in Kuresoi North, Njoro, Molo and Subukia sub-counties will receive cumulative rainfall amounts of between 50 and 70mm. The rest of the wards are projected to receive weekly rainfall of 50mm and below. This is an indication of several wet days in the mentioned areas. (refer to the above map legend for finer details of rainfall distribution).
- Different wards are projected to receive different levels of morning light rains, afternoon and night showers & thunderstorms. Areas over large water bodies like lakes Naivasha and Nakuru may experience additional afternoon rainfall activities due to local climatological effects.
- This weather is conducive for activities like tree planting especially in Kuresoi, Molo and Njoro since the level of moisture is good.

Commentary of county weather forecaster:

- Partly cloudy conditions with rains over few places in the morning hours.
- Showers and thunderstorms over several places in the afternoon/evening during the forecast period.
- Partly cloudy night conditions expected during the forecast period.
- Morning temperatures of about 10 -15 degrees and 22 – 27 degrees in the afternoon/evening.

Advice to farmers from the Ministry & Department of Agriculture:

Highly consider to always consult your local agricultural extension officer for advice on how to plan farming activities in light of this forecast.
