Advisory

- Communities are encouraged to continue harvesting and storing rainwater through water pans, tanks, and other conservation methods to sustain domestic and agricultural use during dry periods.
- Households and institutions are further advised to engage in environmental conservation by growing the trees they planted to reduce soil erosion, enhance water retention, and support long-term climate resilience.
- Communities are urged to conserve fodder for their livestock as they prepare for dry spell.
- Community members are encouraged to keep following official weather updates for any changes.

This forecast should be used in conjunction with the daily (24-hour) and five-day forecasts issued by Kenya meteorological Department.

Marsabit County locational specific forecasts are available from the County Directors of Meteorological Services, Marsabit Meteorological office .

THE END
