Key to rainfall space distribution symbols:  rain is likely to fall in **few places** (less than 33%, 0% inclusive),  rain is likely to fall in **many/several places** (33-67%),  rain is likely to fall in **most places** (more than 67%).

### Commentary of County Weather Forecaster:

- There is a chance of receiving rains during the forecast period over few places, occasionally spreading to several places.
- Harvest rainwater and store it safely for future use.
- In case you hear thunder or see lightning, find shelter inside a building. Stay away from windows and doors.
- Protect your animals from cold rain and the risk of lightning strikes, strong wind or hail by bringing them indoors when it rains.
- The current rains are shortlived and are likely subside after 23<sup>rd</sup> or 24<sup>th</sup> December 2025.
- Use the rains to plant cowpeas for use during the dry period ahead.
- Top dress your crops when the soil is wet.

Below is a map showing the different climatic zones of Busia County. These zones are, referred to in the forecast tables above.
