### WEEKLY MINIMUM TEMP FORECAST VALID 16 - 22 DEC , 2025

# Advisory

- Communities should continue to prioritize safe water use, protect core livestock, de-stock early, and migrate in time. The communities should manage grazing responsibly, conserve dry fodder, and strengthen committees. Treat drinking water, watch nutrition, and monitor vulnerable groups.
- Community members are encouraged follow KMD/NDMA advisories, avoid conflict areas, store food, and prepare services for worsening dry conditions.
- *This forecast should be used in conjunction with the daily (24-hour) and five-day forecasts issued by Kenya meteorological Department.*
- *Marsabit County locational specific forecasts are available from the County Directors of Meteorological Services, Marsabit Meteorological office .*

# THE END

## THANK YOU ALL.
