Isiolo Seven Day temperature forecast valid from 16th to 22nd Dec 2025

MAXIMUM TEMPERATURE FORECAST VALID 16 - 22 DEC 2025

MINIMUM TEMPERATURE FORECAST VALID 16 - 22 DEC 2025

Isiolo Seven Day température forecast valid from 16th to 22nd Dec 2025

- Average daytime (maximum) temperatures more than 30 degree Celsius will be experienced in several parts of the County. However, few parts around Kina, Wabere Burat, Bura Pesa and Oldonyiro are expected to be slightly cold in the in the morning hours (below 30 degree Celsius).
- Average night-time (minimum) temperatures will be moderate ranging from 9 to 23 degree Celsius over most parts of the region.

Advisory

- The Ewaso Nyiro river catchment Counties (Meru, Nyandarua and Samburu) is expected to receive an improved amount of rainfall which may improve downflow during the forecast period which may not significantly affect the current condition of the community.
- Communities should continue to prioritize safe water use, protect core livestock, de-stock early, and migrate in time. The communities should manage grazing responsibly, conserve dry fodder, and strengthen committees. Treat drinking water, watch nutrition, and monitor vulnerable groups.
- Community members are encouraged follow KMD/NDMA advisories, avoid conflict areas, store food, and prepare services for worsening dry conditions.
- *This forecast should be used in conjunction with the daily (24-hour) and five-day forecasts issued by Kenya meteorological Department.*
- *Isiolo County locational specific forecasts are available from the*

THE END

THANK YOU ALL.
