Table 3: Climatic zone: Low Ground Areas _ Below 2000 M above sea level
(Solai, Rongai, Kabarak, Menengai, Nakuru City, Elementaita and Gilgil)

Forecast	Tuesday 10/02/ 2026	Wednesday 11/02/ 2026	Thursday 12/02/ 2026	Friday 13/02/ 2026	Saturday 14/02/ 2026	Sunday 15/02/ 2026	Monday 16/02/ 2026
Morning hrs (Light Rains)							
Afternoon hrs (Showers over few places)							
Night time (Partly Cloudy)							
Rainfall / Showers Distribution (Few Places)							
 Maximum Temperature (Deg. Celcius)	22	23	23	23	23	23	22
 Minimum Temperature (Deg. Celcius)	15	14	15	15	15	14	14
Possible Hazards	None	None	None	None	None	None	None

Key to rainfall/Showers distribution:

FEW- : Rain is likely to fall in few places (0% to less than 33%),

SEVERAL- : Rainfall is likely to fall in several places (33% to less than 66%),

MOST- : Rainfall is likely to fall in most places (More than 66%).

Summary

- The above figure shows the weekly cumulative volume of rainfall amounts each ward and/or sub-county in Nakuru County is forecasted to receive from Tuesday 10th to Monday 16th February 2026.
- Detailed forecast in the above climatic zone tables indicates that almost half of the county is projected to receive cumulative weekly rainfall of less than 1mm while parts of Kuresoi, Molo, Njoro, Nakuru, Bahati, Gilgil and Naivasha sub counties are projected to receive cumulative weekly rainfall of between 1mm and 10mm. Parts of Naivasha will, however, receive cumulative weekly rainfall of between 10mm and 20mm (refer to the map legend for details).
- Most of the wards are projected to receive morning light rains while few of them may receive afternoon and/or night showers over few places during the forecast period. Areas over large water bodies like lakes Nakuru and Naivasha (and their environs which includes the City and Naivasha town) may occasionally experience afternoon showers due to local climatological effects.
- Kindly refer to the above map and tables for details of projected weather outlook as well as weekly cumulative amounts of rainfall during the forecast period.

Commentary of county weather forecaster:

- Mainly sunny intervals with rains over few places in the morning hours.
- Occasional showers over few places in the afternoon/evening during the forecast period.
- Partly cloudy night conditions expected during the forecast period.

Advice to farmers from the Ministry & Department of Agriculture:

Highly consider to always consult your local agricultural extension officer for advice on how to plan farming activities in light of this forecast.
