- The Temperatures remained high in most parts of the County during the forecast period.
- No negative impact reported during the dry condition in the previous forecast period.
- Comparing the periods 10th to 16th Feb 2026 and 3rd to 9th Feb 2026, it was noted that dry and hot conditions was recorded in all parts of the county.
- The strength of wind was noted to be moderate as compared to the previous forecasted period.

7 Day Cumulative Rainfall Forecast valid 17th to 23rd Feb 2026

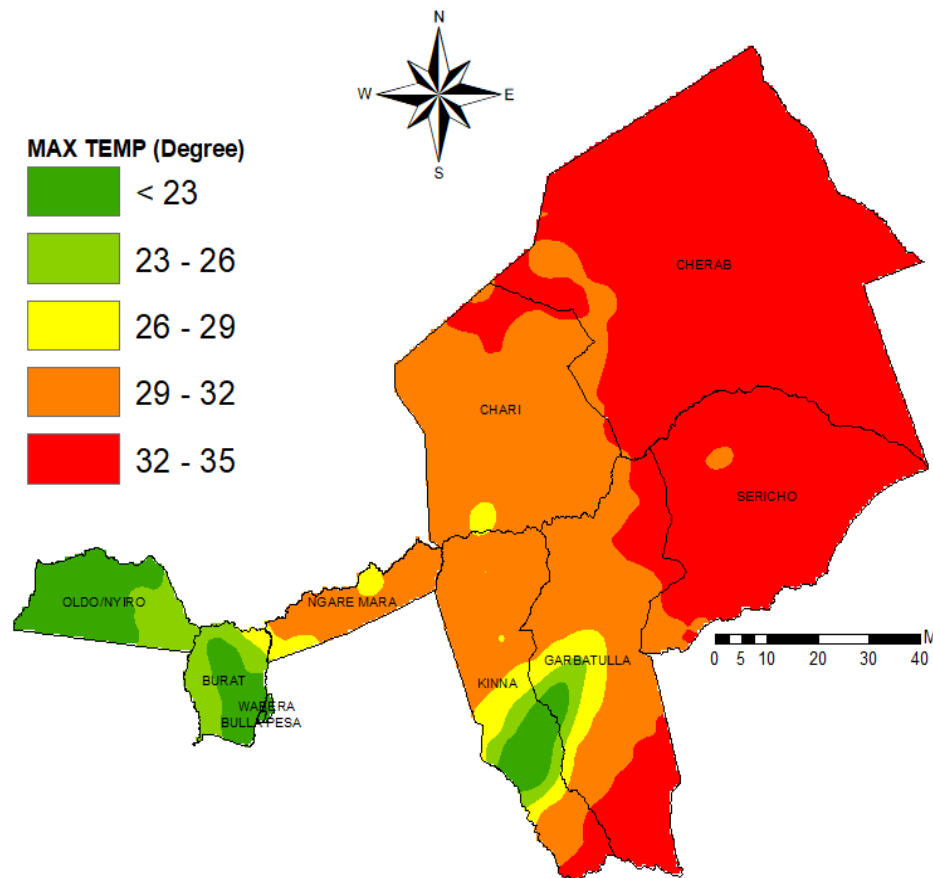

- The seven-day weather outlook for Isiolo County indicates that sunny intervals during the day, accompanied by partly cloudy conditions at night, will prevail across most parts of the County throughout the forecast period.
- There is likelihood of slight showers over very small part of the Cherab and Sericho ward during this period as shown on the forecast map below..
- Hot and dry condition is anticipated to continue the same as the previous forecast period of 10th to 16th Feb 2026.
- Light to moderate southerly to south-easterly winds, with speeds of less than 25 knots (12.9 m/s), are expected to affect several areas of the County during the forecast period.
- Generally, the period under the forecast will be characterized by dry and hot weather conditions across Isiolo County.

WEEKLY ACCUMULATED RAINFALL AMOUNT FORECAST VALID 17 -23 FEB 2026

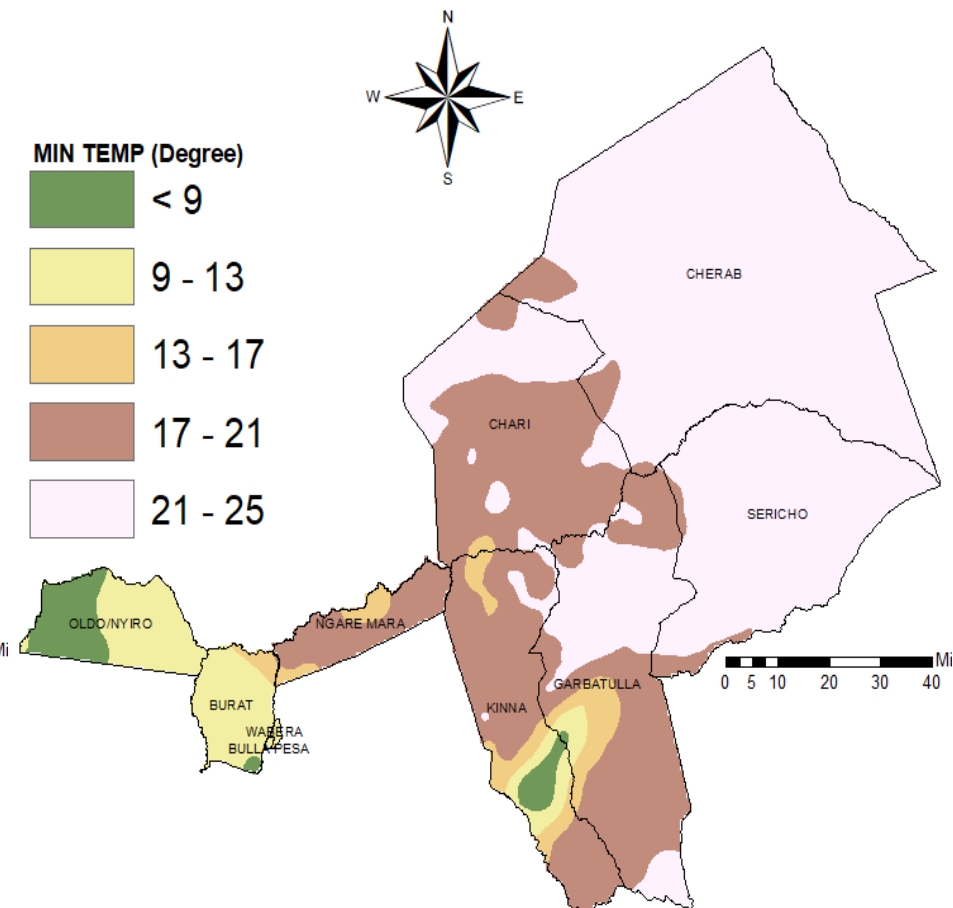

Isiolo Seven Day temperature forecast valid from 17th to 23rd Feb 2026

7 DAY MAXIMUM TEMPERATURE FORECAST VALID FROM 17 TO 23 Feb 2026

7 DAY MINIMUM TEMPERATURE FORECAST VALID FROM 17 TO 23 Feb 2026

Isiolo Seven Day température forecast valid from 17th to 23rd Feb 2026

- Average daytime (maximum) temperatures more than 30 degree Celsius will be experienced in several parts of the County.
- However, some parts around Wabere, Bura Pesa, Kinna and Oldonyiro are expected to be slightly cold (below 30 degree Celsius)during the period under review.
- Average night-time (minimum) temperatures will be moderate ranging from 8 to 24 degree Celsius over most parts of the region.

Advisory

- No rainfall is expected over the Ewaso Nyiro River catchment in Meru, Nyandarua, and Samburu. Downstream river flow of Ewaso Nyiro River has reduced increasing water stress for dependent communities.
- The County Government, through relevant ministries and partners, is advised to intensify water-trucking interventions.
- Community should intensify water conservation practices to ensure that the limited water available is well managed to meet domestic needs and support the few livestock within their households.
- *This forecast should be used in conjunction with the daily (24-hour) and five-day forecasts issued by Kenya meteorological Department.*
- *Isiolo County locational specific forecasts are available from the County Directors of Meteorological Services, Isiolo Meteorological office .*

THE END

THANK YOU ALL.
