Isiolo Seven Day température forecast valid from 17th to 23rd March 2026

- Average daytime (maximum) temperatures is expected to increase to more than 30 degree Celsius in several parts of the County.
- Parts around Wabere, Bura Pesa, and Oldonyiro are expected to be slightly colder than other parts in the County during the period under review.
- Average night-time (minimum) temperatures will be moderate ranging from 10 to 25 degree Celsius over most parts of the region.

Advisory

- Downstream sections of the Ewaso Nyiro river are expected to experiencing reduced water volumes due to anticipated rainfall reduction in the river's upstream catchment areas.
- The enhanced rainfall that has been affecting parts of the county linked to increased convective activity associated with the Madden–Julian Oscillation (MJO) has weakened.
- As the system has relaxed moisture convergence and vertical air movement over the region are has reduce, leading to lower rainfall intensity and an increased likelihood of short dry spells.
- Location-specific forecasts for Isiolo County are available from the County Director of Meteorological Services at the Isiolo Meteorological Office.

THE END

THANK YOU ALL.
