

TAITA TAVETA COUNTY
MONTHLY WEATHER FORECAST FOR JUNE, 2026
 Forecast Period: 1st – 30th June, 2026

Ref No: MET/TITA/CDM/15/26/9/39/006

Date of Issue: 2nd June, 2026

THE OUTLOOK FOR JUNE 2026 AND THE REVIEW OF MAY 2026, FOR TAITA TAVETA COUNTY

1. HIGHLIGHTS

1.1 The Forecast for June, 2026

Parts of Taita Taveta county are likely to experience near average to below average rainfall for June. Mean temperatures are predicted to be above-average over most of the county. However, cool and cloudy conditions (with occasional fog) may occur over some parts of the county.

1.2 Outlook for the next three months (June-July-August) 2026:

Generally, sunny and dry conditions are expected over several parts, with other parts especially the highlands, expected to experience cool and cloudy conditions with occasional fog. Mean temperatures are likely to be warmer than average over most parts of the county.

1.3 The Review for May 2026

Rainfall was received in few parts of the county. The central highlands and few parts of Taveta sub-county received enhanced rainfall. Mean temperatures remained near-average over most parts of the county.

2. RAINFALL OUTLOOK FOR JUNE 2026

2.1 June Rainfall Climatology

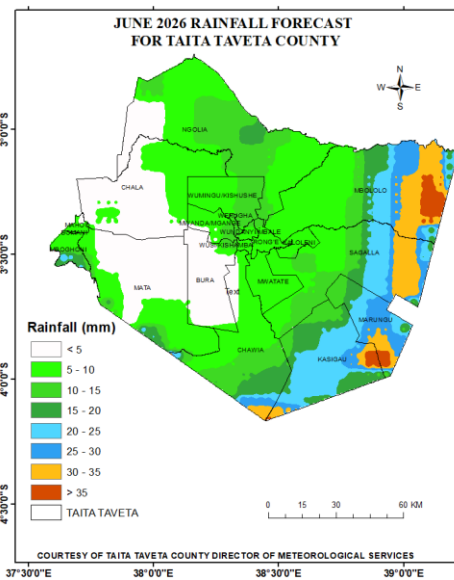

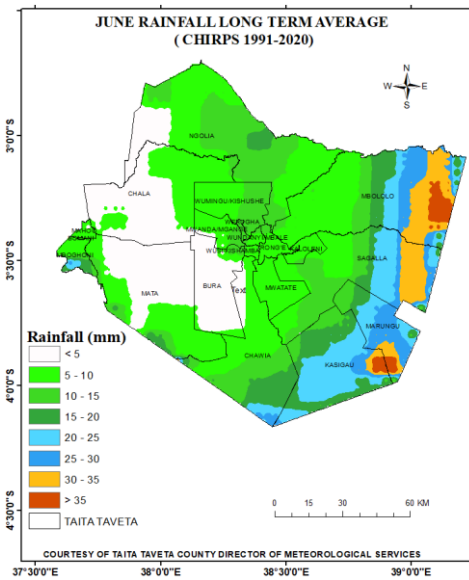

Figure 1: June Rainfall long term average for the county.

Figure 2: Rainfall is expected to be near-average across most areas, with uneven distribution; the southeastern parts may receive enhanced rainfall. Temperatures are expected to be near to slightly above average.

2.2 Rainfall, Temperature and Wind Outlook for June 2026

The outlook indicates that most parts of the county are likely to experience occasional cool and cloudy conditions accompanied by light rains. In addition, strong southerly to south-easterly winds, with speeds exceeding 25 knots (46km/hr), are expected to occur intermittently. Temperatures ranges are expected to be 18°C to 31°C for Maximum and 8°C to 20°C for Minimum.

3. POTENTIAL IMPACTS

The following are the likely impacts of the June 2026 rainfall in different sectors across the county:

3.1 Agriculture:

Dry conditions will favor harvesting, land preparation, and livestock grazing management. Farmers in the Taita Hills may benefit from occasional light moisture for vegetables and horticultural crops.

3.2 Transport and Infrastructure

Strong winds could affect light roofing structures, outdoor activities, dust levels along dry roads, and aviation operations around Voi and Taveta. Fog and low cloud may occasionally reduce visibility in the Taita Hills.

3.3 Health

Cool mornings and nights, especially in the highlands, may increase respiratory illnesses such as colds, influenza, and pneumonia.

NB: This outlook should be used together with the Weekly County Forecasts developed and availed by the County Meteorological Office, as well as any other weather updates and advisories that may be communicated when necessary.
