- **Zone 2:** Daily showers and thunderstorms expected all week, except Tuesday, Thursday, and Saturday.
- **Zone 3:** Daily showers and thunderstorms expected all week, except Tuesday, Wednesday, and Thursday.

2. Temperature

i. **Daytime (Max.)** Temperatures: (23°C - 28°C).

ii. **Nighttime (Min.)** Temperatures: (11°C - 18°C)

SAFETY & STRATEGY: ESSENTIAL GUIDELINES

i. Health Sector

- Boil or chemically treat all potable water to eliminate waterborne pathogens and prevent enteric infections.
- Utilize insecticide-treated nets (ITNs) during sleep to mitigate the projected surge in *Anopheles* mosquito-borne malaria transmission.

- Report early clinical manifestations of cholera, typhoid, or bacillary dysentery to the nearest healthcare facility immediately to facilitate early intervention.
- Maintain sealed covers on all household pit latrines to prevent the surface runoff of faecal contaminants into open water systems.

ii. Environment Sector

- Plant deep-rooted cover crops on bare ground to prevent topsoil erosion.
- Avoid dumping garbage in open drainage channels to prevent severe blockages.
- Maintain riparian boundaries by keeping livestock away from fragile river banks.
- Report localized environmental degradation or illegal logging to the National Environment Management Authority (NEMA).

iii. Lightning Strikes

- Avoid seeking shelter under tall or isolated trees during afternoon thunderstorms.
- Avoid handling electrical appliances or metallic objects while it is raining.
- Get out of open farm fields and elevated ridges as soon as clouds gather.

iv. Agriculture and Livestock Sector

- Dig deep drainage trenches around crop fields to prevent waterlogging and root rot.
- Postpone the application of top-dressing fertilizers to avoid nutrient leaching.
- Vaccinate all cattle and small ruminants against Rift Valley Fever and foot rot.
- Keep livestock on raised, dry, or slatted floors to prevent hoof infections.
- Consult the Nyamira County Department of Agriculture for localized seed and crop guidance.

v. Business Sector

- Elevate valuable stock and electronic equipment off the floor onto high shelves.
- Inspect and repair business premise roofs to safeguard inventory from leakage.
- Update digital payment systems to handle disruptions in physical cash handovers.

Vi. Landslides and Mudslides

- Watch for warning signs like tilting trees or sudden cracks in the ground.

- Create temporary drainage diversions away from steep hill bases to minimize saturation.
- Cooperate with county emergency teams and the Kenya Red Cross during evacuations.

vi. Road Safety

- Reduce driving speeds significantly on wet tarmac to prevent dangerous hydroplaning.
- Never attempt to drive or walk through moving floodwaters under any circumstances.
- Maintain a safe following distance from the vehicle ahead due to poor visibility.
- Keep headlights on during heavy afternoon downpours to remain visible to others

vii. Education and Schools Sector

- Inspect classroom roofs, latrines, and fences daily for structural hazards.
- Ensure learners do not cross swollen rivers or flooded plains on their way to school.
- Designate safe, elevated assembly points within school compounds for emergencies.
