MARSABIT COUNTY WEEKLY WEATHER FORECAST

VALID: 7th to 13th July 2026.

Date of issue: Monday 6th July 2026

WEEKLY ACCUMULATION RAINFALL FORECAST VALID 7 TO 13 JULY 2026

Marsabit County Weather Outlook 7th to 13th July 2026

Most parts of Marsabit County are expected to remain generally dry during the forecast period of 7th to 13th July 2026, consistent with the cool dry season prevailing across northern Kenya. Any rainfall that occurs is expected to be confined to isolated areas along the Ethiopia border, the Mt. Marsabit region, Sololo Highlands, Hurri Hills, and localized pockets around Korr and Ngurunit. Most lowland, desert, and interior areas are expected to receive little or no rainfall. Cool, cloudy mornings are expected over the highland areas, while hot, dry, and windy conditions will persist across the lowlands and the Lake Turkana basin.

1. Marsabit Central & Saku (Marsabit Town, Sagante/Jaldesa, Karare)

Marsabit Town, Karare, Sagante/Jaldesa, and surrounding areas are expected to remain predominantly dry throughout the forecast period. A few isolated light showers of less than 2 mm may occur over Mt. Marsabit, its forested slopes, and adjacent highland areas.

Morning fog, mist, and low cloud cover are expected to continue around Mt. Marsabit, occasionally reducing visibility during early morning and late evening hours.

Wind Forecas

Moderate to strong winds of approximately 15–25 knots are expected.

Occasional stronger gusts may occur over exposed plains and escarpments.

2. North Horr Sub-County (North Horr, Dukana, Maikona)

North Horr, Dukana, Maikona, and surrounding areas are expected to remain hot, sunny, and predominantly dry.

Only a few isolated locations near the Ethiopia border may receive brief light showers of less than 2 mm, while the majority of the sub-county is expected to remain dry.

Wind Forecast

Strong winds of 20–30 knots are expected.

Afternoon gusts may occasionally exceed 35 knots.

Localized dust storms may develop over open dry surfaces.

3. Laisamis Sub-County (Laisamis, Logologo, Korr, Ngurunit)

Laisamis, Logologo, Korr, and Ngurunit are expected to experience mainly dry weather conditions.

Morning cloudiness and occasional mist are likely over Korr and Ngurunit. Isolated light showers of less than 3 mm may occur over nearby hills and elevated terrain.

Wind Forecast

Moderate to strong winds of 15–25 knots are expected.

Dusty conditions are likely in open areas during windy afternoons.

4. Moyale Sub-County (Sololo, Uran, Obbu, Butiye)

Most parts of Moyale Sub-County are expected to remain generally dry.

Sololo, Hurri Hills, and areas bordering Ethiopia may occasionally receive light rainfall ranging between 1 mm and 4 mm. Uran, Obbu, and Butiye are expected to remain largely dry with only isolated brief showers possible.

Wind Forecast

Moderate to occasionally strong winds of 15–28 knots are expected.

Gusts may occasionally exceed 30 knots over exposed areas.

5. Turbi & Surrounding Areas

Turbi and neighboring areas are expected to experience mainly dry, sunny, and warm weather throughout the forecast period.

Wind Forecast

Strong winds ranging between 18–30 knots are expected.

Gusty crosswinds may affect transport along exposed road corridors.

Blowing dust is likely during afternoon hours.

6. Loiyangalani (Lake Turkana Belt)

The Lake Turkana belt is expected to remain predominantly dry throughout the forecast period. No significant rainfall is expected. Hot, windy, and generally dry conditions will continue to dominate across Loiyangalani and surrounding areas.

Wind Forecast

Very strong and persistent winds of approximately 25–40 knots are expected along the Lake Turkana corridor.

Rough lake conditions are likely, particularly during afternoons and evenings.

Blowing dust and occasional reductions in visibility may occur.

7. Kargi / South Horr

Kargi, South Horr, and surrounding areas are expected to experience generally hot and dry weather conditions.

Most locations are expected to remain dry, although isolated elevated areas near South Horr may receive brief light showers of less than 2 mm.

Wind Forecast

Strong winds of 20–30 knots are expected.

Occasional dusty conditions may occur over exposed areas.

Marsabit County Temperature Outlook (7th – 13th July 2026)

Marsabit County is expected to experience generally warm to hot daytime conditions, with cool nights over the highlands and elevated areas around Mt. Marsabit, Sololo, Hurri Hills, Korr, and Ngurunit.

Expected Temperature Ranges

Highland Areas

Mt. Marsabit, Sololo, Hurri Hills, Korr and Ngurunit

Daytime temperatures: 20°C–27°C

Night-time temperatures: 10°C–16°C

Central Areas

Marsabit Town, Karare and Saku Plains

Daytime temperatures: 24°C–30°C

Night-time temperatures: 14°C–19°C

Northern and Eastern Lowlands

North Horr, Dukana, Maikona, Turbi and Kargi

Daytime temperatures: 32°C–38°C

Night-time temperatures: 20°C–25°C

Lake Turkana Basin

Loiyangalani and surrounding areas

Daytime temperatures: 35°C–40°C

Night-time temperatures: 24°C–29°C

Advisory

- Dry conditions are expected to continue across most parts of Marsabit County; communities should continue using available water resources efficiently.
- Livestock keepers should continue monitoring pasture and water availability, particularly in North Horr, Dukana, Maikona, Turbi, Kargi, and other pastoral lowland areas.
- Fishermen, boat operators, and all lake users along the Lake Turkana corridor should exercise extreme caution because of persistent strong winds and rough lake conditions.
- Motorists are advised to remain alert for reduced visibility caused by blowing dust over the lowlands and morning fog around Mt. Marsabit, Sololo, Hurri Hills, Korr, and Ngurunit.
- Residents should secure temporary structures, tents, and light roofing materials against strong winds, especially in the Lake Turkana basin, North Horr, Turbi, and other exposed northern areas.
- Communities are encouraged to observe good fire safety practices, as the combination of dry vegetation, low humidity, and strong winds increases the risk of bush and grass fires in open rangelands.

Residents are advised to follow weather updates and warnings issued by the Kenya Meteorological Department throughout the forecast period.

Location-specific forecasts for Marsabit County are available from the County Director of Meteorological Services at the Marsabit Meteorological Office.
