Advisories across sectors

- **Agriculture and Livestock:** Use supplementary irrigation, utilize sunny periods for post-harvest crop drying, and ensure adequate water and pasture management for livestock to counter heat stress.
- **Environment and Forestry:** Prevent brush fires by avoiding uncontrolled burning, and protect tree seedlings with shade and watering during dry spells.
- **Public Health:** Stay hydrated and limit direct sun exposure to prevent heat exhaustion; boil or treat drinking water from shared sources.
- **Water and Energy:** Conserve water reserves while optimizing solar power generation during high-irradiance conditions.
- **Disaster Management:** Monitor daily alerts for isolated evening showers or localized thunderstorms and maintain readiness for potential bushfires.

NB: Use the above forecasts alongside daily updates and alerts from KMSA for any short time changes
