Kisii County: Weekly Weather Forecast & Safety Guide.

1. As of **Monday, September 27, 2026**, light morning precipitation is anticipated within isolated pockets of **Zone 3**.

Zones 2 and 3: Some areas are expected to experience afternoon and evening showers and thunderstorms on Monday, Tuesday, Wednesday, and Monday.

Zone 1: A few places may receive showers and thunderstorms only on Tuesday and Wednesday.

2. Temperature Outlook

- **Daytime Highs:** 24°C to 32°C (Warm to hot afternoons).
- **Nighttime Lows:** 12°C to 18°C (Chilly to mild nights).

3. SAFETY & STRATEGY: ESSENTIAL GUIDELINES

i. Agriculture & Farming Advisories

- **Crop Protection (Zones 2 & 3):** Prepare fields for afternoon and evening thunderstorms Tuesday, Wednesday, and Monday. Ensure proper drainage to prevent waterlogging and crop damage.
- **Strategic Fieldwork Timing (Zone 1):** Schedule pesticide spraying, fertilizer application, and open-air drying early in the week on Monday, as showers are restricted exclusively to Tuesday and Wednesday.

ii. Disaster Management

- **Lightning Safety (Zones 2 & 3):** Expect severe electrical activity during afternoon and evening storms. Avoid sheltering under tall trees or holding metallic objects, and disconnect sensitive electronics.
- **Flash Flood Precautions:** Due to intense convective rainfall in short windows, motorists and pedestrians should avoid crossing flooded roadways or low-lying seasonal bridges..

iii. Health & Environment Advisories

- With temperature ranges swinging wildly between hot 32°C daytime peaks and chilly 12°C nighttime lows, I recommend multi-layered clothing. Ensure vulnerable demographics like infants and the elderly stay bundled up during cold nights.
- Heat Stroke Prevention: Outdoor workers should maintain high hydration levels to combat intense heat spikes in the early afternoons.
