Commentary of County Weather forecaster:

- Rainfall is expected in several parts of the county during the forecast period. Mornings are likely to be cloudy, with occasional sunny intervals, followed by afternoon, evening and night showers over a few to several places.
- Note on the expected onset:** The onset of the rains may be delayed by one to two weeks due to warm conditions over the Northern Indian Ocean, which may keep the ITCZ farther north.
- Advisory:** Farmers and pastoralists are advised to monitor official weather updates and avoid planting or making major seasonal decisions solely on the expectation of immediate rainfall.
- The temperatures are expected to range from 16 – 34°C
- Winds: Some areas shall experience moderate to strong Easterly breeze at 3 - 12 m/s.
- Expert advice may be obtained from the County department of Agriculture, Livestock, Veterinary, Public Health and Education offices, among others and take advantage of the prevailing and expected conditions. Stay safe and thank you.
