Nyamira County Advisories

1. **Rainfall Forecast**

i. Morning Forecast: Light rain over few places is expected across all zones (1–3) from Thursday through Monday.

ii. Afternoon & Evening Forecast: Showers and thunderstorms are expected over several places across all zones throughout the week.

2. Temperature

- Daytime Highs: 19°C to 26°C.
- Nighttime Lows: 12°C to 15°C.

3. SAFETY & STRATEGY: ESSENTIAL GUIDELINES

1. Agriculture and Food Security Sector

- **Actionable Advisory:** Take advantage of the escalating OND rains to plant fast-maturing crops or clear weeds. Ensure proper farm drainage to prevent waterlogging, which can rot roots. Sustained rain throughout the week will keep soils highly saturated. Proper land preparation prevents structural damage to crops.

2. Disaster Risk Management and Safety Sector

- **Actionable Advisory:** Avoid sheltering under trees or walking in open fields during afternoon and evening storms. Safely harvest rainwater to reduce runoff, and stay clear of local rivers and low-lying pathways when it is pouring.

4. Infrastructure and Transport Sector

- **Actionable Advisory:** Motorists should exercise extreme caution, reduce driving speeds during evening downpours, and avoid flooded bridges. Property owners should clear clogged culverts and estate trenches immediately.

5. Environment and Water Resources Sector

- **Actionable Advisory:** Maximize rainwater harvesting using tanks and storage structures. Protect exposed soil by planting cover crops or applying mulch to prevent soil erosion along steep terrain.

APPENDIX I: INTERPRETATION OF TERMS USED

Term	Rainfall Amount (24 hrs.)	Description
Light	< 5 mm	Gentle rain, drizzle.
Moderate	5–20 mm	Steady, noticeable rain.
Heavy	21–50 mm	Intense rain, possible thunder.
Very Heavy	> 50 mm	Prolonged rain, high intensity.

Term	Area Affected	Description
Few places	< 33%	Rain in a small portion of the region.
Several places	33% to 66%	Rain in multiple but not most parts of the region.
Most places	> 66%	Rain in nearly all parts of the region.

Term	Area Affected	Description
Isolated	Less than 25%	Very few areas affected.
Scattered	25–50%	Several, but not most, areas affected.
Numerous	51–70%	Many areas affected.
Widespread	Over 70%	Almost all areas affected.

Term	Time Coverage (%)	Meaning
Occasional	Less than 25%	Happens rarely or a few times.
Intermittent	25% – 50%	Starts and stops, comes and goes.
Frequent	51% – 75%	Occurs regularly.
Very Frequent / Common	More than 75%	Happens almost all the time.

Term	Probability of Occurrence	Description
Possible	10–30%	There is low confidence.
Chance of/ May	31–50%	There is moderate confidence.
Likely	51–75%	The event is more probable than not.
Expected	76–90%	There is high confidence.
Very Likely	91–99%	There is very high confidence. Almost certain.
Certain	100%	The event is guaranteed to occur.
