BUSIA COUNTY WEEKLY WEATHER FORECAST

Period of forecast: Tuesday 10th November 2026 to Monday 16th November 2026
Date of issue: Monday 9th November 2026

Summary

Busia County will have a wet week, with more rain likely than last week. Most places will get some rain every day, often accompanied by thunderstorms. Southern parts of the county and particularly Butula and Samia sub counties are likely to receive the highest amount of rainfall.

Tuesday and Wednesday will start off dry everywhere, but many places in the county will experience moderate to heavy rain in the afternoon and light rain at night. The rain will get heavier on Thursday, Friday and Saturday, with morning showers possible and heavy rain becoming widespread in the afternoon. It will become lighter at night. The rain will start to ease off on Sunday. Sunday and Monday will see a return to dry mornings with sunny intervals. But there will still be moderate rain in many places in the afternoon and light rain at night.

Daytime temperatures will hit afternoon highs of 27°C to 28°C on most days of the coming week, so it will feel warm, but Thursday, Friday and Saturday will feel noticeably cooler in the heavier rain on those three days. Afternoon highs on those three days will struggle to reach 24°C to 25°C. Nights will be cool and comfortable, with dawn lows of 18°C to 19°C.

	Tuesday 10/11/2026	Wednesday 11/11/2026	Thursday 12/11/2026	Friday 13/11/2026	Saturday 14/11/2026	Sunday 15/11/2026	Monday 16/11/2026

Hazards	Thunderstorm	Thunderstorm	Thunderstorm	Thunderstorm	Thunderstorm	Thunderstorm	Thunderstorm

Key to rainfall distribution symbols: rain likely to fall in few places (less than 33%), rain likely to fall in many places (33% -67%), rain likely to fall in most places (more than 67%)

Commentary of County Weather Forecaster:

1. Plan outdoor activities during morning hours Tuesday, Wednesday, Sunday and Monday when there is minimal chance of rain.
2. Expect **lightning**, **showers**, **strong wind** and isolated **hailstones** in the afternoon. Stay indoors, keep dry, and keep away from tall trees and open fields to stay safe from lightning strikes, strong wind and hailstones.
3. Harvest your rainwater and store it safely for future use.
4. Seek advice from agriculture extension officers on planning farming activities in light of this forecast.

Note: There may be differences in amount of rainfall forecasted and amount of rainfall received.
