Summary

This week's forecast indicates that few places are likely to receive light rainfall.

- In the morning, several places are likely to experience sunny intervals. However, few places may be cloudy.
- In the afternoon few to several places are likely to experience light to moderate rainfall which will be accompanied by thunderstorms.
- At night most places are likely to be partly cloudy. However, few places may receive light rainfall especially around Mt. Elgon.
- Maximum temperatures are expected to range between 24 and 26 degrees Celsius.
- Minimum temperatures are expected to range between 14 and 16 degrees Celsius.

Commentary of county weather forecaster:

- Harvest rain water whenever it rains.
- Do not walk in the open or seek shelter under trees when it is raining in order to avoid being struck by lightning.
- Take advantage of the rainfall and plant food crops and trees.
- Users are advised that this is a forecast and at times there may be discrepancies between forecast estimates and actual amounts of rainfall received.

Advice to farmers from Ministry of Agriculture:

- Consult your agricultural extension officer for advice in line with this forecast.
