KENYA METEOROLOGICAL DEPARTMENT

TAITA TAVETA COUNTY
WEATHER FORECAST FOR THE MONTH OF
APRIL 2022

Date of Issue: 4 April 2022

Period of the Forecast: - 1 to 30 April 2022

SUMMARY

According to climatology, the month of April is when most parts of the county receive peak rainfall. We expect to receive below normal rainfall during the month of April in Taita Taveta county. This implies that most places are likely to receive rainfall that is below the long-term average rainfall for the month of April. The long term mean rainfall is shown in the month above.

FORECAST FOR THE LOWLAND AREAS OF MWATATE, TAVETA AND VOI SUB COUNTIES

Peak rainfall is expected to occur during the month of April 2022.

The first two weeks of the month are expected to be generally dry with occasional light rains which are likely to occur in the evenings over few places.

Temperatures are likely to be between 20°C to 36°C

The last two weeks of the month, are expected to have occasional light to moderate rains over several places in the afternoons and evenings.

Temperatures are likely to be between 19°C to 35°C over the period.

FORECAST FOR TAITA SUB COUNTY
