<b>Hazards</b>	 Thunderstor m/Lightning	 Thunderstor m/Lightning	 Thunderstor m/Lightning	 Thunderstor m/Lightning	 Thunderstor m/Lightning	 Thunderstor m/Lightning	 Thunderstor m/Lightning

Key to rainfall distribution symbols:  rain is likely to fall in few places (less than 33%),  rain is likely to fall in many places (33-67%),  rain is likely to fall in most places (more than 67%)

### Summary

This week's forecast indicates that several places are likely to receive moderate rainfall. There is a likelihood that both day and night time temperatures will slightly drop in most places.

- In the morning, several places are likely to experience sunny intervals.
- In the afternoon several places are likely to experience moderate rainfall that is likely to be accompanied by lightning.
- At night most places are likely to be partly cloudy. However, few places may receive light rain.
- Maximum temperatures are expected to range between 25 and 27 degrees Celsius.

- Minimum temperatures are expected to range between 15 and 16 degrees Celsius.

**Commentary of county weather forecaster:**

- Harvest rain water whenever it rains.
- The expected rainfall will likely increase soil moisture content and farmers who depend on rainfall for crop production are urged to adjust their farming schedules and take advantage of this by planting crops and trees.
- Do not walk in the open or seek shelter under trees when it is raining in order to avoid being struck by lightning.
- Some roads especially in the rural areas may become slippery and users of such roads are asked to be very careful to avoid accidents.
- Volume of water in some streams and rivers may increase and the general populace is urged to be careful when crossing such rivers to avoid drowning.
- Provide shelter for domesticated animals.
- Users are advised that this is a forecast and at times there may be discrepancies between forecast estimates and actual amounts of rainfall received.

**Advice to farmers from Ministry of Agriculture:**

- Consult your agricultural extension officer for advice in line with this forecast.
